Tom Butler is one of the most innovative, imaginative and accomplished artists working in the UK. Drawing on a wide variety of media from broadsheet newspapers to tabloids, to the glossy supplements, his witty and creative collages are literally hot off the press, and offer us a fascinating

artistic commentary on the world around us. His two new limited editions are radiant interpretations of the magic of Venice and the Italian Riviera and his masterly use of collaged elements to represent buildings, skies and exquisite reflections adds immense charm and character to these beautiful images.

THE SHAPE OF WONDER

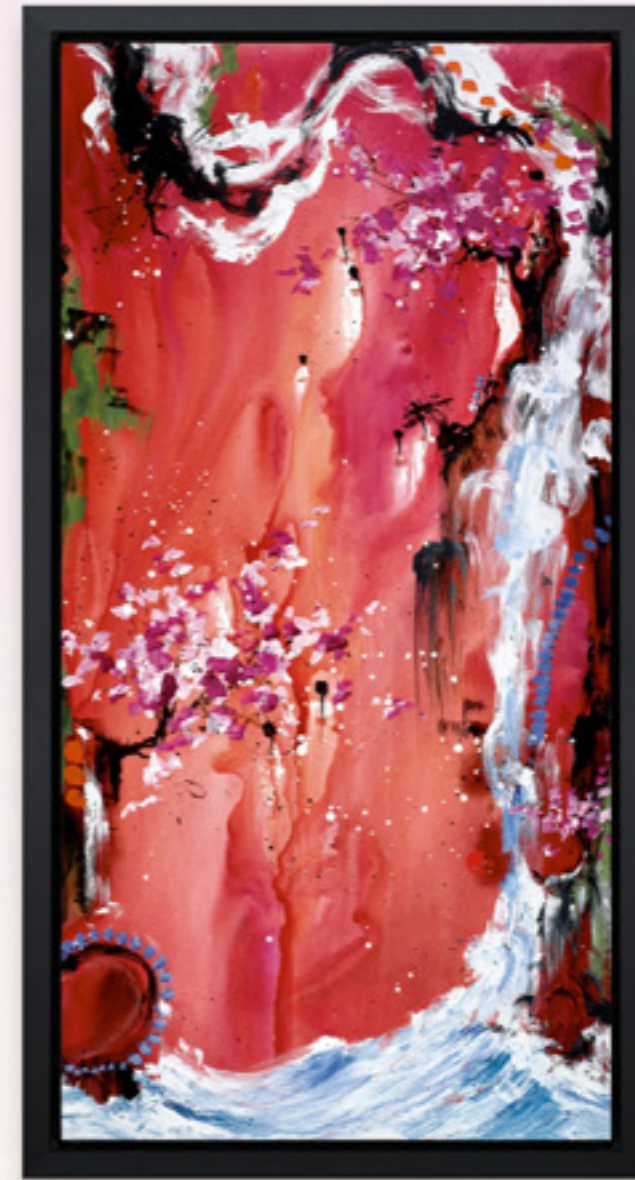

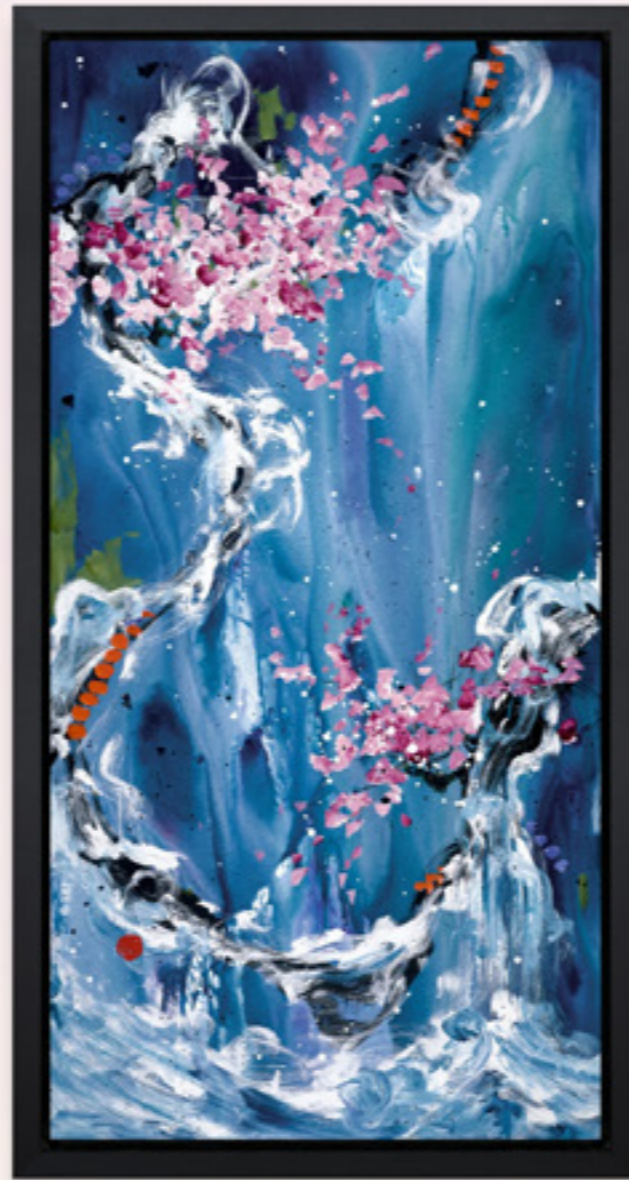

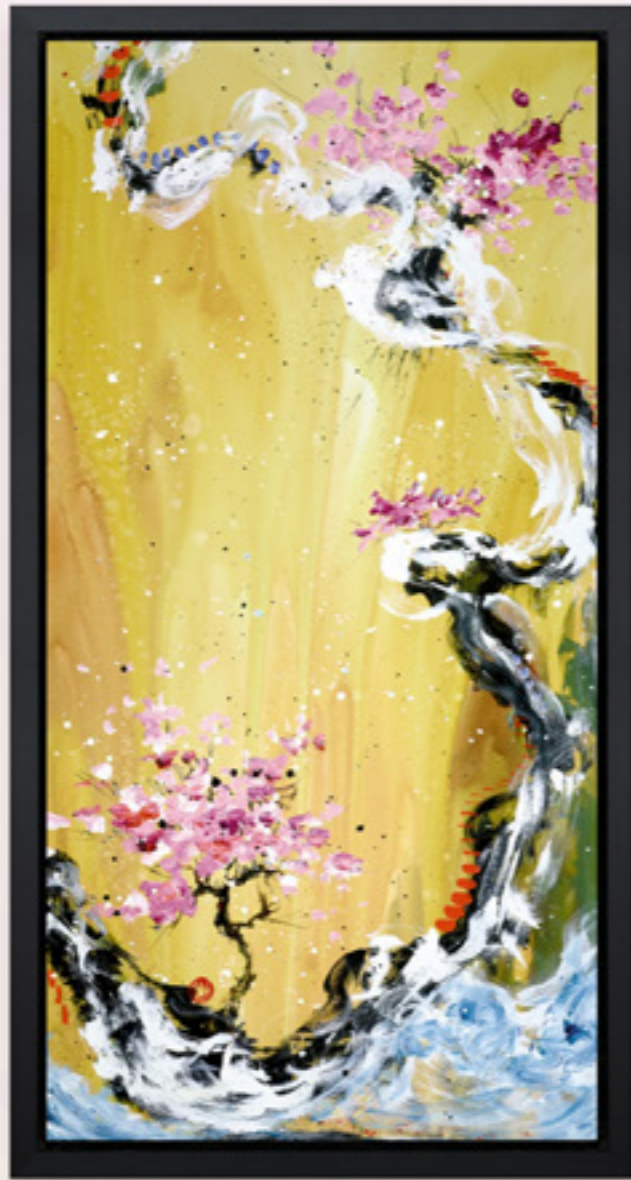

DANIELLE O'CONNORAKIYAMA

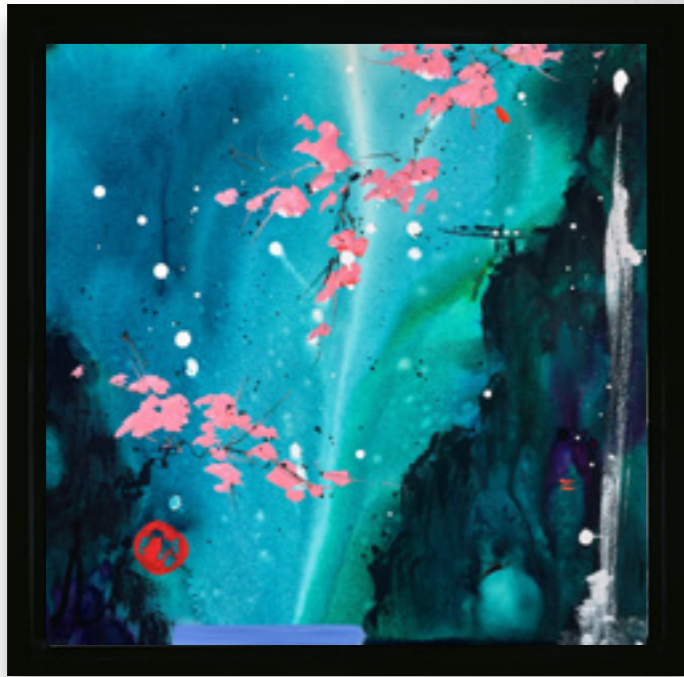

"WISDOM BEGINS WITH WONDER."

In this exquisite new collection, one of our most beloved and highly sought-after artists explores a world of abstract beauty in a vibrant palette of scarlet, cyan and gold. Danielle created the collection in a peaceful and remote part of Ireland, and based it on her personal experience and the wonder she herself found when looking both within and at the wider world.

As a renowned artist and visionary, Danielle has received numerous awards for her paintings. The fascinating fusion of eastern and western techniques, intricate brushwork and a distinctive vocabulary of signs and symbols make up a unique artistic language which renders her work both instantly recognisable and utterly irresistible.

SYNCHRONISE

JENNINE PARKER

“MY SCULPTURE CAPTURES SHAPE AND TEXTURE - THE HUMAN FORM IMAGINATIVELY EVOKED THROUGH MOTION.”

Jennine has taken inspiration for her latest collection from the synchronisation that surrounds us, a spiritual force which pulls our lives into balance and harmony. From the stability we find in unconditional love, to the freedom we feel when dancing; life is full of these subtle yet powerful balancing acts and Jennine captures this sense perfectly with these four stunning bronze sculptures.

Taking the energy and grace of the human body as her starting point Jennine creates masterly bronze evocations of life. Her stylish juxtaposition of smooth and textured surfaces amongst her curves and shapes gives each piece a strong sense of movement and personality and renders them as stimulating to the touch as to the sight.

GUIDED BY LOVE

MACKENZIE THORPE

"I THINK I NOW REALISE THAT WHAT I DRAW RELATES TO UNIVERSAL EMOTIONS."

Mackenzie Thorpe's unmistakable style has established him as one of the country's most celebrated and best-loved artists. In these atmospheric images, he explores some of his favourite themes and symbols to guide us along an enchanting, and perhaps enchanted, path to love, kinship and tranquillity.

"The search for love, our need for it and the

power of it, is apparent in lots of my work, not just the more symbolically obvious images. I see life like a journey and we all know the beginning but none of us knows the end. The journey begins and in the darkness the child sees the light and from that light comes hope. Life is full of its ups and downs. But we have a job to do and that's to get love from one generation to the next!"
