TALK OF THE TOWN

SPREAD THE LOVE

With these witty homage pieces, Hyde acknowledges four artists who transformed simple ideas into **iconic art** and inspired a generation.

Paper Editions of 395, Size 14 x 14", Framed £395

In his unique narrative style, Hyde has created a refreshing tribute to some of the most influential pop art motifs of the last 60 years: [Haring's 'Radiant Heart'](#), [Koons' 'Balloon Dog'](#), [Indiana's 'LOVE'](#), and [Banksy's 'Balloon Girl'](#).

In a new departure for Doug, the perfect simplicity of a heart outlined in red and the word 'fragile' in the artist's own handwriting, is tempered by a subtle blurring of drips which create the impression that we are viewing it through a misted window. The composition and use of colour pay homage to Hyde's artistic hero, Rothko, and give 'Handle with Care' an understated beauty all off its own.
